

**Chestnut Class Years 5 and 6**  
**Take Away Task - Autumn 2019 (due in 21/10/19)**

Your task is to research a particular mountain range in the world and present your findings to the class.  
 You must use a range of resources to help you understand the features of the mountain range you are studying.

Below is a list of questions you *might* like to answer.

- What is special about the area?
- What is the climate like?
- What is life like for an adult/child living in the area?
- What is there for tourists to do?
- Are there any environmental issues to consider?
- What are the names and particulars of some of the mountains in the range?
- What is the highest altitude and some of the other altitudes?

Below is a list of mountain ranges and some of their features.

Mountain Range	A named mountain on the range		Mountain Range	A named mountain on the range
Rocky Mountains	Mount Edith		Ural Mountains	Mt. Narodnaya
Andes Mountains	Anconcagua		Alps	Mt. Blanc
Himalayas	Mt. Everest		Caucasus	Mt. Elbrus
Pyrenees	Pic de Aneto		Atlas Mountains	Toubkal

You can choose how to present your work.

I have included some ideas below but feel free to think of your own.

1. Power Point presentation (including images and photographs)
2. Tourist Guide - use other guides as inspiration
3. Leaflet - again use others as a guideline
4. Information Booklet - written information and pictures/photographs
5. A model with an accompanying mini booklet
6. Poster - must include writing as well as pictures
7. A much more exciting way that you have chosen yourself

If you need any help or resources please ask.

Good Luck and enjoy!

Mrs Tully
